

# *Everything You Hate - Project Vela*

## Verse

Looks like the time has come  
To pull the plug on the weak  
Your independence gone  
Control is not what it seems

It's time to rise up  
And take it into the streets  
The life support is cut  
The transformation complete

## Pre-Chorus

My actions don't seem so clean  
You're out there  
Pulling the strings  
Anything in a cage that couldn't hold  
Has escaped and it's out of your control  
Everything you ever hoped that you could be  
Only exists in a fake reality

## Chorus

You and I are one and the same  
One reflection  
Bound by different names  
Recognize that you have become  
Everything you hate  
Everything you hate

## Verse

Master manipulate  
I'm nothing more than a slave

I must capitulate  
And start to dig my own grave

It's time to die and be  
The person you've come to hate  
I have come to see  
Futility of the brave

### Pre-Chorus

My actions don't seem so clean  
You're out there  
Pulling the strings  
Anything in a cage that couldn't hold  
Has escaped and it's out of your control  
Everything you ever hoped that you could be  
Only exists in a fake reality

### Chorus

You and I are one and the same  
One reflection  
Bound by different names  
Recognize that you have become  
Everything you hate  
Everything you hate

### Bridge

Cut the cords  
Cut the cords  
That bind you  
Cut the cords  
Cut the cords  
That bind you  
Cut the cords  
Cut the cords

That bind you  
Cut the cords  
And be free

Chorus

You and I are one and the same  
One reflection  
Bound by different names
